

Greenhouse Nova Scotia

7 Atlantic Central Dr., East Mountain, NS B6L 2Z2
info@greenhousenovascotia.com | 902-893-7455

Dear Manager,

Greenhouse Nova Scotia has represented the province's thriving greenhouse and nursery industry since 1950. Our mission is to support local greenhouse, garden center, and nursery operations across Nova Scotia, helping them grow successful and sustainable businesses.

Nova Scotia's greenhouse and nursery industry is a vital part of the province's agricultural economy, with approximately 100 growers managing over 2 million square feet of production space. Statistics Canada reported that this sector generated approximately \$24 million in annual sales in 2023 and employed around 750 people. The industry continues to thrive, driven by strong demand for high-quality, locally grown plants and sustainable gardening products. The resilience of the greenhouse and nursery sector underscores its importance to Nova Scotia's overall agricultural landscape.

Each year we hold an Annual General Meeting in the winter, and virtual workshops throughout the year for greenhouse education.

We strive to provide our members with education and management techniques to help them maintain exceptional greenhouse practices.

We are seeking vendor partners to contribute an Annual Sponsorship. In return for your financial contribution, you will receive exposure to our membership through advertising and communication on our website and within our member communications.

Below you will see the levels of sponsorship we have established, and the benefits associated with each. While we do hope our sponsors will reoffer each year, there is no commitment beyond the current year.

	Gold	Silver	Bronze	Friend
