**Website:** [www.highmarkpower.com](http://www.highmarkpower.com)

**Industry:** Clean Energy, EV Charging, Solar Energy, Off-grid Energy

**Location:** Windsor, NS

## **About Highmark Power – Clean Energy & Electrical Solutions for Nova Scotia Agriculture**

Highmark Power is a Nova Scotia-based electrical contractor specializing in the design, installation, and maintenance of electrical and clean energy systems. Serving greenhouse operators, farms, and agri-businesses across the province, we bring a unique combination of electrical expertise and full-scope civil capabilities—allowing us to deliver efficient, reliable projects from start to finish without heavy reliance on subcontractors.

Our team has extensive experience in Solar PV, Battery Storage, and Electric Vehicle charging infrastructure, as well as conventional electrical upgrades for agricultural facilities. From trenching and conduit installation to wiring, concrete work, equipment placement, and commissioning, we handle every stage in-house—keeping projects on schedule and within budget.

Whether you're looking to power your operation with clean energy, expand electrical capacity, or modernize your infrastructure, Highmark Power provides the skills, equipment, and experience to meet the needs of Nova Scotia's agricultural sector.

## **Why Highmark Power Sponsor Greenhouse Nova Scotia**

The team at Highmark Power would like to increase the knowledge and capacity of greenhouse operators and farmers across Atlantic Canada. Helping business owners to better understand the operational and cost benefits of adopting renewable energy technologies, to ensure a cleaner future for our province.
