

Greenhouse Nova Scotia

7 Atlantic Central Dr., East Mountain, NS B6L 2Z2
info@greenhousenovascotia.com | 902-893-7455

Dear Manager,

Greenhouse Nova Scotia has proudly represented the province's greenhouse and nursery industry since 1950. Our mission is to support local greenhouse, garden center, and nursery operations across Nova Scotia, helping them grow successful and sustainable businesses.

The greenhouse and nursery sector is a vital contributor to Nova Scotia's agricultural economy. Approximately 100 growers manage more than 2 million square feet of production space across the province. According to Statistics Canada, the industry generated roughly \$24 million in annual sales in 2023 and provided employment for approximately 750 people. Strong consumer demand for high-quality, locally grown plants and sustainable gardening products continues to drive growth, underscoring the sector's ongoing strength and importance.

Greenhouse Nova Scotia hosts an Annual General Meeting each winter, along with virtual educational workshops throughout the year focused on greenhouse production, management, and best practices. Through these initiatives, we strive to provide our members with the knowledge and tools needed to maintain exceptional standards within their operations.

We are currently seeking vendor partners to participate in our Annual Sponsorship Program. In return for your financial support, sponsors receive direct exposure to our membership through advertising opportunities and promotion via our website and member communications.

Outlined below are the available sponsorship levels and the benefits associated with each. While we hope sponsors will choose to support us on an ongoing basis, there is no obligation beyond the current year.

	Gold	Silver	Bronze	Friend
Annual Financial Contribution (March 2026 – March 2027)	\$750 +HST	\$500 +HST	\$250 +HST	Discount offered to GHNS Members
